

## Call for Participation

### “The Integrated Trajectory” - Getting There

The 2009 Integrated Communications Navigation and Surveillance (ICNS) Conference, jointly sponsored by government, civil and military, and industry, addresses research and development of integrated CNS technologies for advanced aeronautical digital information systems and applications supporting the future global air transportation systems.

The Conference is focused on understanding CNS programs, plans, research and technology, and other relevant issues for the near-term, mid-term (2012 – 2018) and far-term (beyond 2025).

Each day begins with a plenary session. Wednesday morning is all about **NextGen**, highlighting progress to date and implementation plans. Thursday morning will focus on **Net-Centricity**, addressing use in military applications, the FAA’s acquisition progress, and plans for demonstrations. **Surveillance** is the topic for Friday’s plenary, discussing progress on ADS-B, future plans, and integration of traditional radar information with ADS-B.

Every afternoon, parallel technical sessions will be held on specific ICNS topics.

Papers and presentations are requested for the technical sessions along the key topical areas listed below. Exhibits and product demonstration by representatives of CNS-related industries and organizations are also invited.

- CNS Systems Architectures
- Communications
- Navigation
- Surveillance
- Information Sharing Environment (Net-Centricity)
- Standards for CNS/ATM
- Safe Air Transportation System
- Secure Air Transportation System
- Performance-Based ATM
- Improved Environmental Performance
- Aircraft/Airline Operations for NextGen
- Trajectory Based Operations
- Federal Aviation Incentives and/or Mandates
- Air/Ground Integration
- Military Operations in NextGen

#### Conference Chair

Ann Tedford  
Federal Aviation Administration  
Ann.Tedford@faa.gov  
202-493-4477

#### Conference Vice-Chair

Allan Storm  
U.S. Air Force  
Allan.Storm@pentagon.af.mil  
703-693-0050

#### Technical Chair

Roy Oishi  
ARINC  
rto@arinc.com  
410-266-2982

#### Sponsors & Exhibits Chair

Michael Harrison  
Aviation Management Associates  
mharrison@avmgt.com  
703-518-9923 x208

#### Abstract Submission

Authors are invited to submit Abstracts of up to 1000 words by **February 20, 2009** on any of the topics listed. Please visit the ICNS Conference web site for current information on how to submit your abstracts.

#### Follow-up Deadlines

Notification of acceptance will occur by **March 9, 2009**.

Final Papers are encouraged for publication in the proceedings and are due **April 17, 2009**.

Conference Presentations are due **May 1, 2009**.

Please visit the ICNS web site for the most current information:
