2009 ICNS Conference
13 May 2009

AIAA Vision and Mission

AIAA Vision Statement:

To be the shaping, dynamic force in the aerospace profession – the forum for innovation, technical excellence and global leadership

AIAA Mission Statement:

To address the professional needs and interests of the past, current, and future aerospace workforce and to advance the state of aerospace science, engineering, technology, operations, and policy to benefit our global society

The world's forum for Aerospace Leadership

2009 – 2013 Strategic Plan – Four Core Goals

- To advance the aerospace profession and the community it supports by acting as a catalyst for information flow and creative interchange...
- To sustain and strengthen the profession by stimulating workforce development through lifelong learning...
- To stimulate progress in the state of the art of aerospace science and technology...
- To serve as an advocate for the profession by highlighting the tremendous societal contributions of aerospace systems and technologies...

ICNS Imperatives

- NextGen and Future ATM
- Net Centric Operations
- Sensor Fusion
- Information Exchange and Interoperability
- Autonomous Systems

AIAA Support for ICNS

- Technical Forums
- Publications
- Standards
- Public Policy – Government and Media
- Professional Education
- Educational Outreach
